ABnote North America, a global leader in ID cards, produces the finest composite ID badges and driver's license blanks on the market today.
DuraLine™ includes two products that will meet your card longevity requirements: Dura5™, which offers a 5 year guarantee and Dura7™, which offers a 7 year guarantee. We can customize your cards with a wide variety of security features, including micro printing, foils, and color shifting inks. Each feature gives your card a unique look as well as the security needed to meet the stringent requirements of your state, federal, and university programs.

We produce the most reliable ID badges and license blanks on the market today. And of course, every ID product we produce is a result of a clear understanding of the direction from ICAO, AAMVA and the Real ID Act. The DuraLine™ provides the longevity and security you need in a plastic card.
