ABnote is the trusted provider of identification (ID) cards for governments all around the globe. From voter registrations, citizen cards, to immigration status cards, **ABnote** has the technology, and more importantly the security and experience to provide national identification credentials to suit your needs.

To strengthen the security of the ID card, we offer DuoChrome™ Ink which appears one color under traditional light and changes to another color under fluorescent light.

- Patented technology
- Available in two color combinations
- Both an overt and covert security feature
- Quickly and easily verifiable
- Cannot be copied by scanner or photo copier
- Helps authenticate and verify integrity

With manfuacturing locations around the world, **ABnote** can provide national ID's for just about any country.
